Location

WildLandscapes is a global organization with programs in the United States, India, Africa, and Latin America. We welcome candidates from these regions and value the diverse perspectives they bring. Our commitment to inclusivity recognizes the importance of local insights and encourages participation from those who are deeply connected to the regions we serve.

"As Chair of the Board, I deeply admire and support WildLandscapes for three core strengths. Firstly, the organization is actively engaged in genuine conservation work that has tangible, real-world consequences, and on an impressive scale. Secondly, its operational efficiency and the high leverage way in which funds are utilized maximize the impact of every dollar invested. Lastly, WildLandscapes' willingness to undertake complex, high-stakes projects that others shy away from fills a critical void in the conservation field. This organization, though small, achieves remarkable feats, truly epitomizing the 'pound for pound, a Navy Seal of conservation' ethos.
